Safety update: suggestions for on-site meeting procedures

Before you leave for a meeting, double-check how you are feeling. Stay home if you have any of the following:

- Temperature of 100.4F or greater
- Respiratory symptoms including coughing, shortness of breath, sore throat
- GI symptoms –nausea, vomiting, diarrhea
- Loss of taste or smell

Best practices for returning to your home

- Leave your work shoes outside of the home in a safe and dry place; Spray with isopropyl alcohol or germicidal spray
- Take work clothes immediately to washer or store in a trash bag outside living space (Best Practice is to wash your work clothes every night)
- Wash hands immediately upon entering home (after dealing with work clothes)
- Best practice is to shower/bathe immediately upon return home
- Think of all work objects and clothing as potentially contaminated and treat as such - keep away from your safe zone

Updated message for PGL NSG EE program partners

Dear Residential HVAC Trade Allies,

When possible, please submit photos of installations with your [Residential rebate applications](#).

Photos should include:

- Equipment being replaced
- New equipment data plate
- New Equipment installed

Program staff will not be conducting in-person verifications on installations at this time, but we do reserve the right to perform phone verifications and inspections at a later date.

Please reach out to me with any questions.
